

KARTIKEYAN SHARMA

B.Tech Electronics & Computer Engineering | Bennett University
9599617434 | kartikeyansharma456@gmail.com | linkedin.com/kartikeyan-sharma-83b7253a0

CAREER OBJECTIVE

Motivated B.Tech student in Electronics and Computer Engineering with hands-on experience in IoT, electronics, robotics, drone building, PCB design, and hardware prototyping. Currently working as an intern at TSUYO Manufacturing, gaining practical exposure to motor manufacturing, motor controllers, winding, varnishing, and electronics R&D. Seeking opportunities to apply engineering knowledge and develop strong practical skills through internships and technical projects.

EXPERIENCE

TSUYO MANUFACTURING — Intern

2026 – Present

- Practical exposure to motor manufacturing processes including winding and varnishing.
- Observed motor controller manufacturing and electronics-related production activities.
- Developing understanding of PMSM and other motor technologies and their applications.
- Exploring PCB design, testing, and R&D activities related to motor control systems.

IIT JAMMU — Summer Intern / Intern

2-month Summer Internship, 2026

- Worked on IoT, ESP32-based systems, web application protocols, drone mathematics, and drone assembly.
- Gained practical experience in electronics, sensors, hardware integration, and project development.

TECHNICAL SKILLS

Programming	Python, C++
Hardware & Electronics	Arduino Uno/Mega, ESP32, sensors, servo motors, circuit prototyping
Electronics	PCB Design, sensor interfacing, hardware integration
Tools	KiCad, VS Code, Wokwi, Microsoft Excel / Word / PowerPoint

PROJECTS

Smart Farm Automation System using Arduino Mega

- Built a prototype with voice-control integration, soil-moisture monitoring, automatic irrigation, temperature-based fan control, and servo-based gate automation.

EcoWell Smart Water Softener

- Developed an ESP32-based prototype with ultrasonic salt-level estimation, DHT22 temperature monitoring, OLED status display, servo-controlled regeneration, TDS threshold logic, remote/manual control, and fault monitoring.

Calcium Detection from Saliva using RGB Sensor

- Developed a color-based sensing prototype using an RGB sensor; designed the sensing setup and calibration process and explored biomedical electronics applications.

EDUCATION

Bennett University — B.Tech, Electronics and Computer Engineering | 2025–2029

B.R. International School + Allen Career Institute — Class XII (CBSE) | 2024

Delhi Public School — Class X (CBSE) | 2022

CERTIFICATIONS & ACTIVITIES

- Arduino Step by Step: Getting Started
- Qt 5 Core for Beginners with C++
- PCB Design with KiCad: Basic to Advanced
- Participated in Ideathon and Research Hackathon (RESEM)
- Optica Student Chapter, GeeksforGeeks, and E-Cell involvement

CORE SKILLS

Problem Solving • Teamwork • Communication • Quick Learning • Analytical Thinking
